PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and maintaining a **production-grade SaaS platform**. Skilled in **React, Next.js, Node.js, PostgreSQL**, payments, POS systems, ONDC integration, and **AWS deployments** with ownership in release management and production support.

EDUCATION

Sangameshwar College Solapur	Solapur
Master of Computer Science CGPA: 9.36	2023-2025
Sangameshwar College Solapur	Solapur
Bachelors of Science in Electronics CGPA: 9.95	2020-2023

PROFESSIONAL EXPERIENCE

Full Stack Developer | BharatGo Pune, Jun 2025 - Present

- Built and maintained a multi-tenant SaaS platform using **React, Next.js, Node.js**, and **PostgreSQL**, supporting multiple vendors on a single system.
- Integrated **ONDC (Open Network for Digital Commerce)** into BharatGo's seller platform, enabling sellers to list and transact through the open commerce network.
- Acted as a Release Manager, handling task allocation, progress tracking, release validation, deployment coordination, and resolving production issues through direct customer support and live debugging.
- Developed Mobile POS features, including Bluetooth printer integration for generating and printing customer invoices.
- Integrated **PhonePe** and implemented webhooks for real-time payment status updates.
- Deployed applications on **AWS EC2** and handled basic cloud infrastructure and environment setup with CI/CD.

Web Developer | CodeWorld Infotech Pvt Ltd Solapur, Jun 2024 – Dec 2024

- Developed dynamic, database-driven web applications using **PHP** and **CodeIgniter**.
- Managed hosting, file deployment, and database configuration using cPanel for live client projects.

PROJECTS

GrowGrape.AI – Sustainable Viticulture Solutions | [\[Link\]](#) 2025 – Present

- Built an AI-powered web application using **Next.js** and **Node.js** to help grape farmers resolve queries on cultivation, disease identification, and pest analysis.
- Integrated AI-driven prompt workflows to deliver precise, context-aware advisory responses to farmers.
- Integrating satellite data for crop monitoring and field-level insights as part of ongoing roadmap.
- Presented the platform to the Ministry of Agriculture and Farmers Welfare, Government of India, to explore adoption and collaboration.

QR Pay Manager – Dynamic UPI QR Payment PWA | [\[Link\]](#) 2025

- Built a **Next.js** Progressive Web App (PWA) with a **Node.js** backend enabling local shops to generate dynamic UPI QR codes for contactless payments.
- Supports multiple UPI IDs with labels, amount-based QR generation, and payment history tracking by date.
- Fully offline-capable PWA with 5-pin secure login; all data stored locally for complete privacy.
- Eliminates dependency on standard POS terminals for small businesses via a lightweight mobile-first experience.

Easy Satellite App – Real-Time Satellite Tracking Mobile App Dec 2024 – Apr 2025

- Built a cross-platform mobile app in **React Native** with role-based authentication (user/admin) using PHP, XAMPP, and MySQL.
- Integrated a 3D Earth model (Three.js via WebView) displaying real-time satellite positions by converting **TLE data** (from CelesTrak.org) into latitude, longitude, and altitude using satellite.js.
- Supports tracking of 35 active satellites across LEO, MEO, and GEO orbits categorized by country.
- Included satellite FAQ, orbit info pages, admin satellite/user management, and a user feedback/review system.
- Presented as M.Sc. II research project at Sangameshwar College (Autonomous), Solapur – March 2025.

SKILLS

- Frontend:** React.js, Next.js, JavaScript, React Native, HTML, CSS, Tailwind CSS.
- Backend:** Node.js, Express.js, PHP.
- Databases:** PostgreSQL, MongoDB, Neon PostgreSQL, Redis.
- APIs & Tools:** REST APIs, Postman, Git, GitHub, Ngrok, DBeaver.
- Cloud & DevOps:** AWS EC2 (Basics), CI/CD, cPanel.
- AI Tools:** Cursor, Kiro, Antigravity, Bolt.new, Figma MCP.
- Languages:** English, Hindi, Marathi.
- Certificates:** React Bootcamp (LetsUpgrade.in), JavaScript Bootcamp (LetsUpgrade.in)
